Products Supplied:

- Frameless "Vista" Shower Door System with Digitally Printed Ceramic Grids
- Frameless "Vista" Toilet Compartment Doors with Digitally Printed Digital Ceramic Grids
- Contemporary HMI Matte Black Hardware

Project Case Study

HMI's Boutique Hospitality Solutions Offer a Spa-Like Experience.

Objectives

Design shower and toilet rooms that echo the building's industrial roots while staying easy to clean—honoring the Crimson Tide legacy behind the hotel's name with timeless style and practical function.

Challenges

To maintain cleanability, we used printed grids over metal—capturing the industrial look without the upkeep. A smart, strong solution—much like the elephant behind the hotel's name.

Solutions

InGlass™ by HMI digitally prints custom designs on glass using ceramic frit inks that fuse during tempering—creating vibrant, permanent visuals that are both durable and design-forward.

Project Overview

Brand: *Marriott Tribute Portfolio*
 Property Type: *New Construction, Upscale Boutique*
 Room Count: *112 rooms and suites*
 Product Supplied: *HMI Frameless Series "Vista" shower & water closets*
 Completion Date: *2022*

Project Team

Owner / Operator: *Marriott & co-owned by Nick & Terry Saban*
 Architect / Interior Designer: *Avenue Interior Design*
 General Contractor: *Rabren General Contractors*
 Hospitality Management / Development Partner: *LRC2 Hospitality*

Key Benefits

- Domestic Manufacturing
- Unparalleled Service
- Fast Leadtimes
