Project Case Study

The Grand Dame of Uptown, Reimagined

Objectives

Challenges

Solutions

Opened in 1923 as the Stoneleigh Court Apartment Hotel and once the tallest building west of the Mississippi, this 12-story Uptown Dallas landmark called for a renovation that honored Dorothy Draper's maximalist design legacy while meeting the expectations of a modern Marriott Autograph Collection guest. Historic, occupied high-rise renovations demand precision within existing architectural constraints, and the bath spaces needed to pair seamlessly with Fettle Design's bold pattern and color work without compromising the century-old character of the building. HMI Glass supplied Frameless Series shower doors engineered for clean, unobtrusive sightlines—letting the black-and-white marble, jewel-tone wallcoverings, and Draper-inspired details take center stage in every guestroom bath.

Project Details

Property: *The Stoneleigh, Autograph Collection*

Property Type: *Renovation*

Room Count: *104 Guestrooms / 72 Suites*

Product Supplied: *HMI Frameless Series shower doors & hardware*

Completion Date: *2026*

Project Team

Brand: *Marriott International*

Owner: *Brookfield Properties*

Original Architect: *Frank J. Woerner*

Interior Design: *Fettle*
